EXPERIENCE

- **Tech Elecon Pvt. Ltd., V.V Nagar, GJ** Jan 2025 – May 2025
Web Developer Intern (Team Lead)
 - Developed and optimized **responsive** web applications, ensuring **seamless** user experience across **devices**.
 - Designed and implemented **scalable** backend solutions, improving data retrieval **efficiency** by **10%** and enhancing system **performance**.
 - Enhanced UI/UX through Figma-based **prototyping**, optimizing navigation flow and reducing **user journey** time by **25%**.
 - Improved user **engagement** by **10%** through UI optimizations and **performance** enhancements.
- **Nims Web, Godhra, GJ** May 2024 - June 2024
Summer Intern
 - Built practical web applications using **React.js**, including a **To-Do manager** and a **Weather dashboard** integrated with a public API.
 - Designed and implemented a **property rental platform** from scratch, allowing users to list, search, and book stays at multiple locations.
 - Gained **hands-on industry training from experts**, applying best practices in **frontend development, component-driven architecture, and responsive UI/UX design**.

SKILLS

- **Languages:** React, SQL, Firebase/Supabase, Python, JavaScript
- **Tools:** Android Studio, Google Colab, Visual Studio Code, Git, Github, Figma, Lucid Charts, Jira,
- **Misc:** Problem Solving, Communication, Adaptability, Team Coll, HTML/CSS, Agile-Scrum, AI/ML

PROJECTS

- **Mood Weather API** [find here](#)
 - Developed an **advanced Flask API** integrating **OpenWeatherMap** and **Spotify Web API** to deliver **personalized outfit, music, and food recommendations** based on **weather** and **user mood**. [Know more...](#)
- **Amazon Reviews Sentiment Classifier (fine-tuned DistilBERT)** [find here](#)
 - Fine-tuned **DistilBERT** on Amazon reviews to build a **sentiment analysis classifier** that achieves >90% accuracy on test data, with an optional **interactive demo UI**.
- **Ticket Management System (React, Supabase, PostgreSQL, JIRA, Scrum, SDLC)** [demo here](#)
 - Developed a full-stack **ticket management platform** with **real-time updates, role-based dashboards**, and integrated **Agile workflows**, improving issue tracking and resolution efficiency.

EDUCATION

- **B.E. in Computer Engineering 2020 -** 2025
Madhuben and Bhanubhai Patel Institue of Technology, Anand
 - **Relevant Coursework:** AI/ML, OOPS, DSA, OS, DBMS, Computer Networks, SOLID Principles, Project Management, Software Engineering, UI/UX Design, Web Development.

EXTRA

- **Circuit Hub Nadiad, GJ (college startup)**
 - Worked as a **Project Manager, Developer** and **IOT Engineer**. **Led** IoT and electronics projects, **managing timelines, resources, and client requirements**.
 - **Improved project efficiency by 30%**, delivering **18+ automation solutions** in less than **2 months**.
- **SoloMate – Never Do Life Alone | Project, World's Largest Hackathon by Bolt.new** [Devpost link](#)

CERTIFICATIONS

- **Linux Commands and Shell Scripting**
- **Developing Responsive Web Pages**
- **Machine Learning Crash Course**
- **Project Management Job Simulation**
- **Google Machine Learning Crash Course**
